# INTRODUCTION

I am thrilled to share a comprehensive report on the successful Tenth Empire Skating Championship. The event witnessed participation of 140 students, ranging in age from 4 to 14 years, representing six different schools from Nairobi, Machakos and Kajiado Counties.

I express my deepest gratitude to all the participants, parents, schools and volunteers who made this event a resounding success. Your commitment, sportsmanship, and positive energy were evident throughout the event, and it created an incredible atmosphere especially for those competing for the first time.

As we conclude the first edition of the Tenth Empire Skating Championship, we look forward to building on this success and continuing to provide a platform for young skaters to shine.

I anticipate even greater collaborations in the future.

# Five Great Benefits of Skating for Children

**Physical Fitness:** Skating is a great cardiovascular sport that can help children build their stamina, strength, and overall fitness levels.

**Flexibility and Range of Motion:** The dynamic movements involved in skating help children be more flexible and have a wider range of motion.

**Confidence and Self-esteem:** Self-confidence and self-esteem grow as they master new skating techniques and are able to see their development.

**Social Interaction and Teamwork:** Children interact with their peers, make new friends, and develop important social skills. Teamwork is fostered through taking part in group activities and team competitions.

**Fun and Recreation:** Above all, skating offers an enjoyable and thrilling experience.
